She does it all: coach, teacher, role model. She is always there to make you smile. This year, the 2020-2021 yearbook is being dedicated to Ms. Kehoe, who has been a part of the Hastings family since 2015. Especially in this challenging year we have had, she continues to be a wonderful person that we can depend on. Ms. Kehoe's positive attitude spreads beyond the students. Her time and dedication to the students of Hastings High School has brought both comfort and support to all students, whether or not she was your teacher or coach. Ms. Kehoe has made a great impact on our school, motivating students to always try their best while also having fun. Hastings High School would not be the same without her.

Message from the Editor

"Always go with the choice that scares you the most, because that's the one that is going to help you grow"
- Caroline Myss

When I joined Yearbook last year, I never would have thought I would be the editor. I never imagined how much time and commitment working on our yearbook would take. Working on the yearbook last year was one of the best and most exciting experiences ever. Mr. Merchant gave me the incredible opportunity to become the Editor in Chief. When I received this offer, I was thrilled to have another opportunity to work on the yearbook.

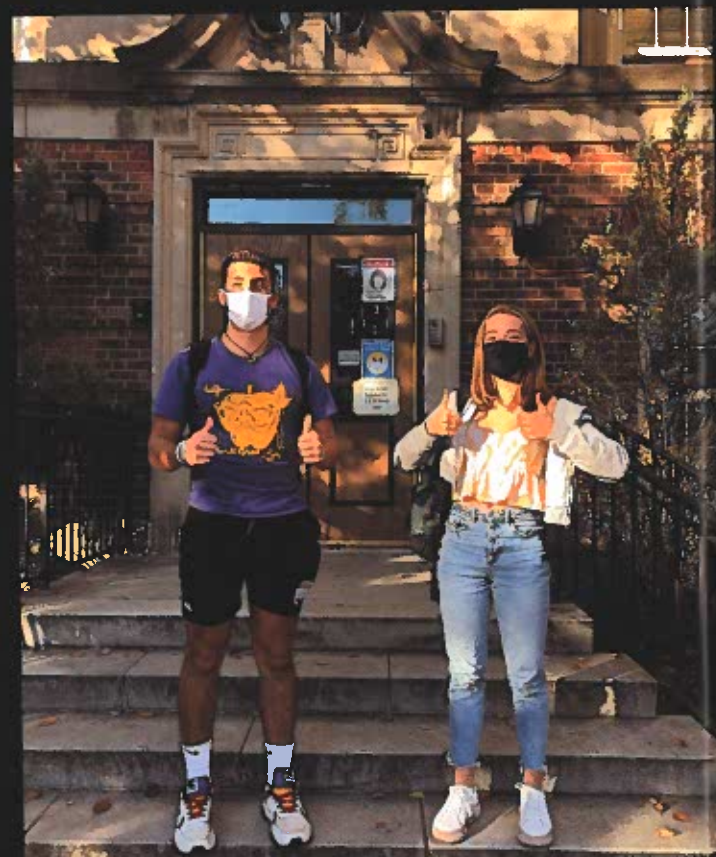

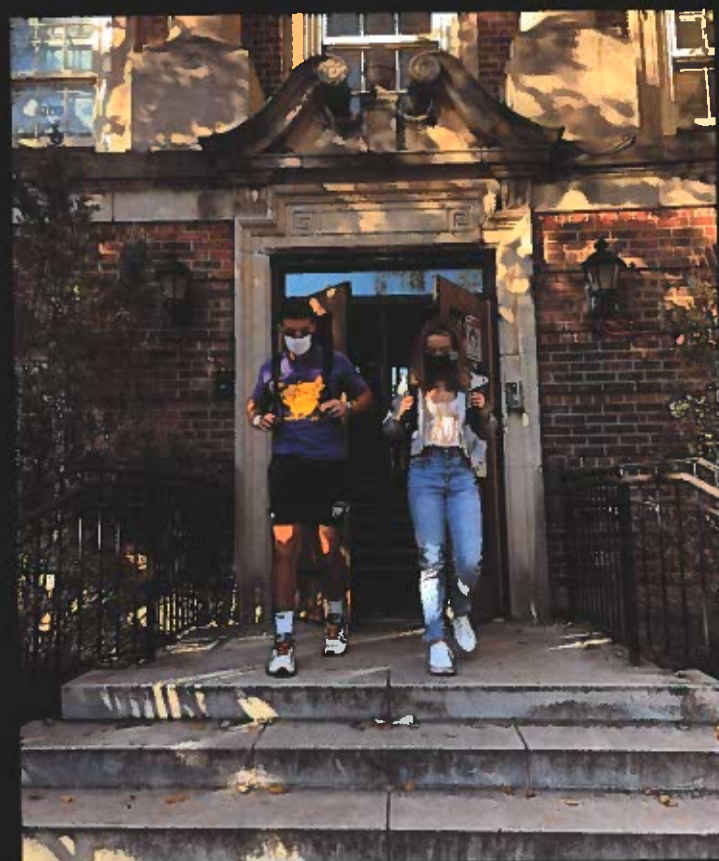

The biggest challenge I have faced as editor was to come up with a unique yearbook cover. Over the summer, I spent much of my time stressing about what a perfect cover could look like. My ideas were all over the place. This year has been incredibly difficult and weird for all of us. In designing the cover and the rest of the book, I wanted there to be a unique theme. I decided to make the theme based off of the "We Are" phrase.

Coming into school this year has not only changed our education, it has pushed back the yearbook creation process. However, we as a staff have worked incredibly hard to make this the best yearbook yet. I hope that in 10 or 20 years, each and every one of you will look back at this yearbook and remember all of the hardships that you pushed through.

Seniors, this is the moment we have all been waiting for. The moment that we never thought would be here. Many of us grew up in Hastings together. We spent years waiting to finally get to where we are right now. This is our year. It's not going to be easy. It's not going to be normal. All we can do is make the best out of what we have. We are strong. We are ambitious. We are family. **We are 2021.**
- Sophia Gunther

Good Morrow Students of HHS. If you don't know, we are your Co SU presidents. Thank you for electing us, although there wasn't much of a choice, considering no one ran against us. They were all too scared.

While this year has been less than ideal, there are a few positives that came out of RonaSzn2020. Even the best of us have downloaded the ever-addicting TikTok-- if you've never watched a TikTok video, you're doing COVID wrong. Flex Wednesdays were kinda valid; we didn't get much work. Unfortunately, we lost those (#neverforget). We were privileged enough to learn the mythical game of Kubbb, courtesy of Mr. McCann. And most days we get to do school in our pajamas.

Our letter would be incomplete without mentioning our current school experience amid said pandemic. The first few months of 2020 were rough: we almost went to war with Iran, lost a legend Kobe Bryant, and got hit with a tragic global health crisis. Practically overnight, we went from social gatherings to social distancing, from parties in the woods to parties on Netflix. Yet, virtual school has brought us together in a new way. Nobody would be able to make it through without secretive zoom chats or breakout rooms with your homies. Mask breaks with teachers like Mr. O'Brien and Señor Lopez have given us opportunities to learn more about their personal lives, perhaps more than we wanted. Mask breaks should remain a staple even during the post-pandemic years @Mr.A.

Through everything, the HHS community persevered. Our students found time and patience for positivity, engaging in new activities like baking, hiking, and drawing. The community came together in solidarity and support for the Black Lives Matter movement, promising that we will labor to do better and make the changes our ancestors didn't. As the national tension preceding the election elevated, us students fought for equality and a better future.

As our senior year comes to a close, we are excited about the epic things our classmates are going to do. Our graduating class is the best HHS has seen, no doubt about it. Period. We already have two Broadway actors among us. Whether it's starting a new chapter of life in a different country, or continuing an athletic career in college, we are certain that the HHS class of 2021 is destined for greatness, and most importantly, world domination.

The legends of HHS will never be forgotten: our grade was practically carried by the good will of teachers like Mr. Willson and Ms. Grassia, whose constant efforts to improve our experiences drastically changed our lives for the better. And while we will miss all of the teachers and faculty in the building, we have no doubt that they will miss us. How could you forget the time that Jake Hansen was stuffed in a locker for freshman Friday, or Atomu's perpetual shenanigans?

Shoutout senior SU: Benna and Jonny for each setting school records for winter track, which is definitely a sport. Shoutout Adonis Crudence for smoking everybody in every race ever in the shortest shorts. Shoutout Bruce, sugar-free since '03. Caleb, perfect score on SAT. And Caroline, the most contagious laugh. And of course the two people we couldn't live without: Sophia M and Melissa who are just the most amazing humans ever.

And to you, the underclassmen, we leave you with the responsibility of maintaining the image of HHS. We trust that you continue to represent the school with pride and dignity. Stay proud. Keep it real. And always obey your seniors.

Best of luck. Fulfill the send. Secure the bag. Obtain the grain.
Amaral-McDermott 2021, a historic administration

Jonny and Benna.

It was great season. Even though we didn't get the result we wanted, we were grateful for the opportunity to walk onto the field each day and train hard. I think there was both individual progress and team growth. I'm really looking forward to see what the team will accomplish in the future.

CROSS COUNTRY

This season was definitely one for the (year)books. From beating Irvington for the first time in years, to missing the league meet due to COVID quarantine, to being the second best (small) team in all of Southern Westchester, every moment and mile we spent together was memorable and a joy. We want to thank Mr. Wendol, Section 1, the whole Hastings athletics department, Coach Guilfoyle, and especially our teammates for making the season what it was. While we certainly hope a repeat of this season never happens, we are grateful we were able to share Fall of 2020 with you.

FIELD HOCKEY

We are so grateful that we were able to get in a bunch of games this season! We have a really talented and supportive team and we work really well together on and off the field. A huge thanks to Ms. G and Mr. A for being such dedicated coaches. We will miss our flockey family but we know we leave it in good hands! Please crush Irvington And Edgemont.

SIMNET GIRLS TENNIS

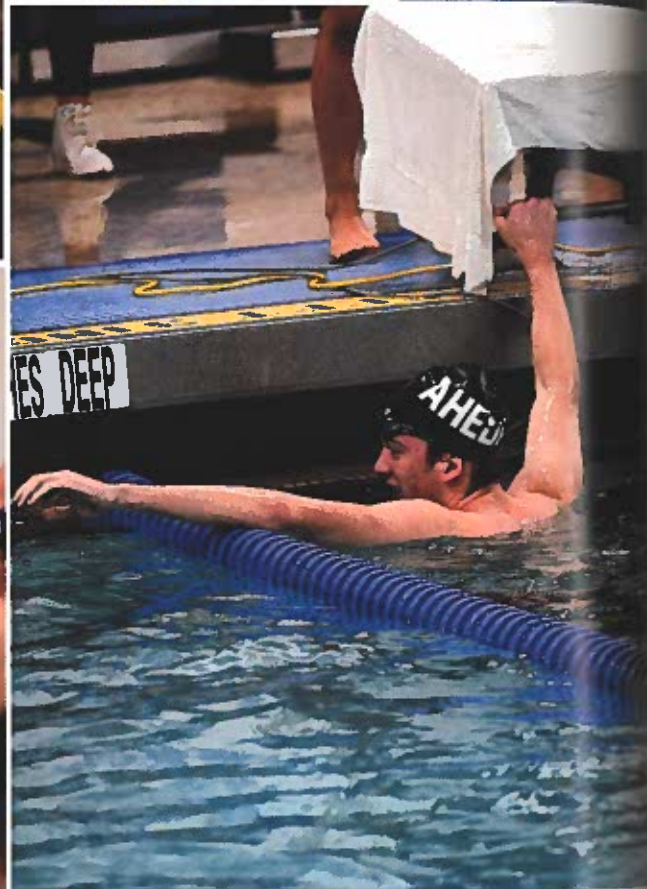

This year, our team became closer than we've been in any past year. Primarily, we were all really timid at the idea of a new coach and the strange season COVID was offering, but Coach Sheree was the best coach we could've asked for, making the tennis season more enjoyable and productive than we ever could've imagined. She pushed us everyday, strengthened our abilities, and really brought us together. I love this tennis family, and I'm gonna miss them so much next year! However, I have such high hopes for the future of Hastings Girls Tennis! -Chloe, Josie and Mary

ROSTER ROSTER

In the beginning of the year, we were disappointed as we were unsure if there would be a football and Hudsonettes season. However, we kept our heads up, and continued planning for a future performance. When we finally got word of a season, we were beyond excited, but knew we would have to work twice as hard and wanted to prove three times as much. We were determined to make this year stand out, and we're still confident we will do so. We are ecstatic to see the boys kill it, and could not be more grateful for the team we have! These girls have worked so hard and stayed so dedicated under these insane circumstances, and we haven't felt this proud in any of our past Hudsonettes teams.

Stay At Home Together Photo Essays

In March of 2020, when the school district quickly transitioned into a full remote learning model amid rising cases of COVID-19, many of us were left aimless, without motivation, and struggling to learn how to live this new life. Photography students in grades 9 through 12 were asked to create photo essays documenting their life in isolation. Many students participated, too many to be able to feature everybody's work here in our yearbook. They provide an interesting insight into all of our individual experiences in lockdown and, by extension, the ways in which we all remained connected during these difficult times

While the COVID-19 pandemic happens, so does the racism pandemic, so I went to show my support at various Black Lives Matter rallies and marches.
(Aya Hinawi)

As protests began it felt like the world was finally united on fighting for the rights of African Americans in this country. The world felt brighter because of this.
(Kylie Korz)

After the tragic death of George Floyd the world felt gloomier than before. The problems shifted from Covid-19 to fighting for justice and equality.
(Kylie Korz)

This is when the pandemic started to get a lot harder. I was starting to feel a lot sadder and being in my house was starting to get a lot more difficult. The train station is normally filled with people but it was empty.
(Kylie Korz)

At the beginning of the stay at home period, the first thing I did and did a lot of was be outside. I explored things I never noticed before, like my neighbor's tree with pretty flowers :)
(Aya Hinawi)

This is a cute picture I took of my dog, Abigail. In the beginning of quarantine all I would do is sit on my couch and watch movies all day and my dog started sitting on the couch with me which she normally doesn't do. I also think it's cute that she's crossing her paws because it shows how much of a pretty lady she is.
(Katharine Kunze)

This is the hallway at school, dark and empty. It is feeling like this is what Corona holds, but there is a light at the end.
(Aya Hinawi)

View of my parents playing with my siblings from my screen window.
(Atomu Hicks)

The beginning of quarantine was hard. I saw this flower and I felt as though it resembled how I felt throughout covid. I was the flower and the rain was corona. Corona came into my life making it feel miserable, but it will get better. Just like how the rain goes away and the sun begins to shine again.
(Camilla Mischka)

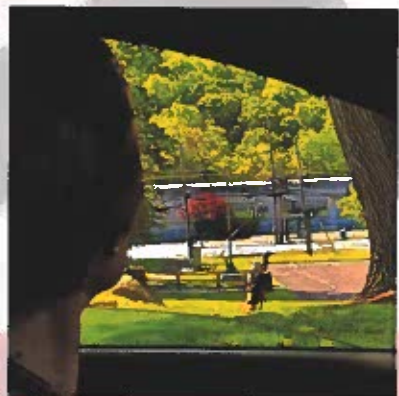

Over quarantine I became OBSESSED with the Twilight Saga and I highly recommend you watch all 5 movies if you haven't already. I had never played the piano before but was really interested in learning the twilight theme. I put little post-it's on the keys so I could just look at that.
(Katharine Kunze)

I was taking advantage of the weather, playing with new perspectives, and I watched this dandelion a lot, and picked it when it bloomed.
(Aya Hinawi)

We walked down a really pretty trail and then there was this pack of geese and then all of them flew away except for one. That goose kept on squaking and squaking! Even though I don't speak goose, I bet the goose was saying, "Hey! Where did you guys go? Hello? Guys! Please!" It makes me sad thinking about it. Those geese that left that poor little goose all alone are fake. I hope that goose is doing alright now.
(Carina Eisenberg)

My Mother and I have been going on a lot of random drives during the day over quarantine. In this photo we spotted a wild turkey in a parking lot. My mom loves all kinds of birds and has a sixth sense when it comes to spotting them. I think that's pretty cool.
(Katharine Kunze)

As quarantining continued I learned how to appreciate the outdoors more and use my surroundings to enjoy myself. I've been having a lot more fires while sitting outside and looking at the stars. (Camilla Mischka)

Although corona is far from over being quarantined helped a lot with self-discovery and has given me many memories. When I look at this photo it makes me think at everything in a more positive way. (Camilla Mischka)

I've spent my time at home gardening. At the beginning of isolation I learned to grow beans. This is one of my bean plants about three weeks after the initial planting. (Sophie Prevallet)

This photo fits well since it really shows the idea of being alone. As you can see there is one kid riding his bike on a trail that seems to have no one near him. When I took this I mainly had in mind of what the kids were thinking during this time and the severity of the world right now. It makes me think how they won't be able to truly comprehend the thing the world is going through right now and how carefree a lot of kids live with a very innocent mindset. (Colin McSpedon)

This is the view out my window every day when I sit down to do school work: my mom and dog working outside. (Sophie Prevallet)

It's difficult to keep track of everything, so I bought a wall calendar to manage my time better. It's proved to be very helpful! (Sophie Prevallet)

We have always considered these little things to be so pretty. When I look at one now though, I see what our world has become. Trapped in a little world of simplicity. No way to escape the cycle. Separated from outside. A shadow of how we used to operate. These little things are a mirror in a way. (Henry Sabella)

2020 shown in one picture. (Henry Sabella)

My dog has been very happy with the amount of time we are spending at home. He gets tons of attention and he's never really home alone anymore. (Anya Donders)

This photo, in my opinion sums up the past two months in one photo. This photo is less about me and more about how the general population is affected by this. If you couldn't tell, this is Times Square. It usually doesn't look like this. On average 330,000 people pass through here in a day. The day I drove through wasn't much different. It was 11 am on a weekday. The pandemic was the only thing keeping 330,000 people from walking through here. This image shows how the daily life and flow of everything can really be interrupted. (Ryan Goldberg)

As the two people in the photograph stay symmetrically separated on either side of the benches in town, I'm reminded of how the quarantine makes Hastings a much lonelier place. Everyone, metaphorically speaking, is separated on either side of a bench. Whereas the citizens of used to be friendly and outgoing, they must now avidly avoid one another. This photo represents the imperfections in what should be a beautiful day and friendly scenery. (Chris Wyatt)

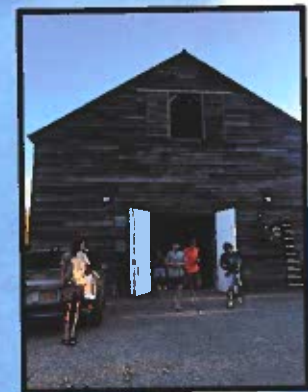

Since the pandemic has started, wearing masks has become mandatory. It's a new way of life that everyone is getting used to. (Anya Donders)

Summer Stories!

I spent the summer in Spain, with my wife and kids. My wife and I live in a small village outside Valencia, near the coast. My experience with pandemic rules there was much much calmer than it was here. In Spain, we all wore masks all the time, arrows on the sidewalk, directed pedestrian traffic, and people waited outside if an office or store was too full. My guilty tv pleasure is game shows. This is a summer time only adventure – no interest at all during the school year.. My 'professional reading' is all about professional development, pedagogy, and math instruction. But, my summer reading is all about wacky science fiction and fantasy novels read in the sunlight with my feet propped up. I just love reading about teenage witches, cyborgs learning humanity, and space operas.
(Dr. Stephens, Math Department)

Over the summer I went to Lake George for a couple days. We went on a boat, and went parasailing. I also went on a short trip upstate with a few friends.
(Chloe Caraballo, Senior)

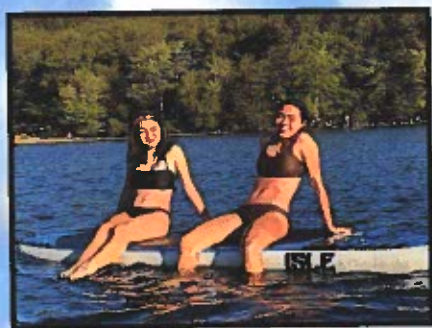

This summer I took online theater classes. It was a good way to use up time I had sitting at home and I learned a lot.
(Mamie Rushkoff, Sophomore)

I spent a lot of the summer in the Berkshires.. My friend who was learning to become a pilot invited me to a flying lesson and I decided to go for it and got over my fear of heights.
(Randie Shaw, Counseling Department)

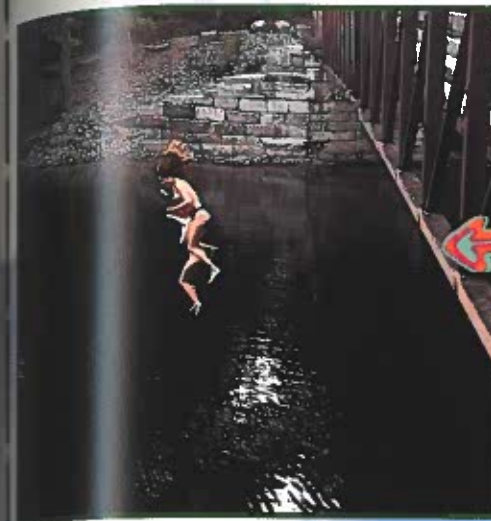

Over the summer, I went to Cape Cod and woke up early to watch the sunrise on the beach.
(Sophie Mines, Junior)

I went to a beautiful lake in Maine over the summer. My family and I did a lot of fun activities up there including paddle boarding.
(Miya Frank, Sophomore)

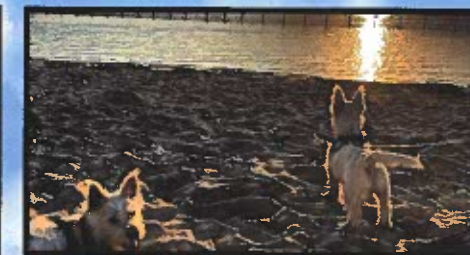

I went to Lake George with my aunt.
(Zadira Otivich, Junior)

I went cliff jumping with some friends this summer, in Groton, Massachusetts.
(Emma Poure, Senior)

This summer, I went to Bradley Beach, New Jersey. I spent my time enjoying the sun with my family and loving the beach.
(Emma Korz, Senior)

Over the summer I went to Maine with my family. For the rest of the summer I stayed at home. I kept myself busy with summer work and hanging out with one person. I binged Avatar this summer and my favorite movie I saw was probably "The Last Black Man in San Francisco". My favorite part of the summer was when it first started and we could finally get a break from online school.
(Sharin Clark-Deutsch, Senior)

I attended a forensic science program for two weeks at Castleton University in Vermont. (Elie Hamerman, Senior)

I went to Taiwan for 3 months. Since coronavirus hadn't affected the country much, I was able to travel, shop, and live more normally. I visited family and had a lot of fun. (Maymay Lin, Junior)

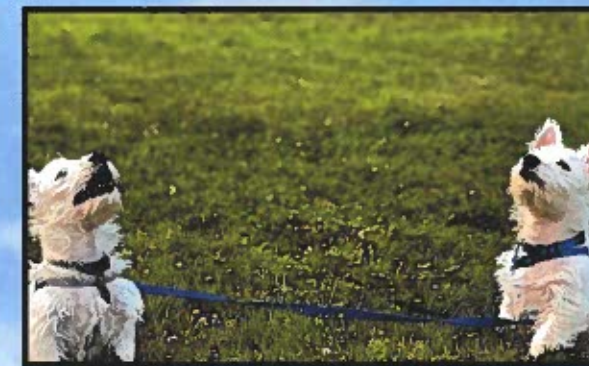

During the summer I visited Connecticut. My family and I usually go here during the summer, because of an old family tradition of ours. Recently we began going to a casino located near the beach. We go shopping, bowling, zip lining, and much more. The trips here are always awesome. (Matt Moore, Senior)

I spent some of my summer in the Hamptons with my best friend. (Alexa Magaro, Freshman)

I got two new puppies. They are West Highland Terrier. As of today they are six months old. Their names are Gus and Ralph. (Hannah McGuirk, Freshman)

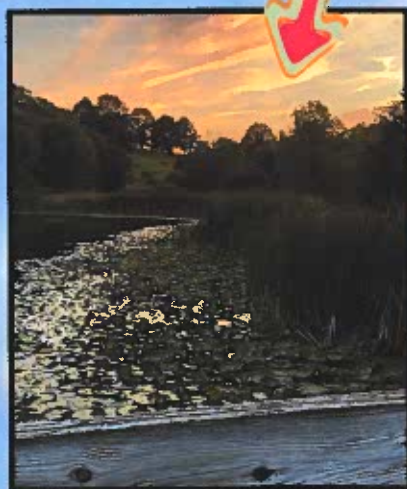

I went to the Berkshires with my girlfriend and family. I went paddle boarding on a lake and got good food. (Jeremy Serbee, Senior)

Despite the pandemic, I had the chance to be able to play summer baseball for the Hastings Summer Baseball team. I was able to play with a bunch of my friends. (Connor Noyes, Junior)

I went to Lake Michigan for a week. My family rented a house, and we spent some of the time paddle boarding. (Yasmine Ghorban, Sophomore)

I went to Long Beach Island with my friends and family for a week. One fun thing I did there was Jet Skiing. I went to the beach almost everyday to relax and I enjoyed getting away for a short period of time. (Jessica Higgins, Senior)

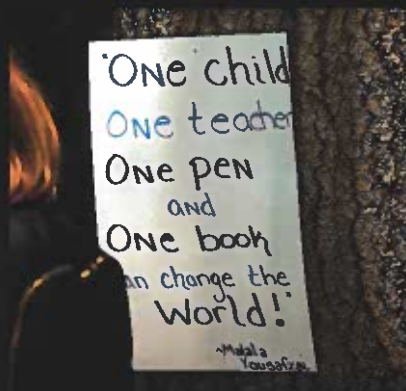

I went to Ithaca with my family. We dropped my sister off at college, and while there I encountered some very pretty views. (Sarah Korosi, Sophomore)

I went to LBI with friends. I hung out at the beach and went to a nice dinner. I also spent time with my family there. (Cara Novak, Junior)

I was able to go to Block Island with my family this summer. I traveled on my boat. My favorite part of the vacation was being able to go to the beach every day. (Sophia, Senior)

Our Generation Will Do Better was a rally led by a few members of the class of 2020 students. The focus was to spread the message of hope that goes based off of our experiences as children in the current school system that past generations created to breed the worlds next teachers, principals, superintendents , doctors, lawyers, cops, Congressmen and women, journalists, and the list goes on and on because OUR potential is endless. The messages that was stated that day were from fellow students on how our school district even though it is so great academically it has failed in teaching us what truly matters most and that is having an understanding to those around us and who they are culturally and historically so that WE CAN BETTER interact, speak, understand, and respect one another.

Love, Mom, Fran, Rage and Sky

Special thanks to the
incredibly DEDICATED,
CREATIVE, and HARD WORKING
yearbook staff.

You all worked amazingly hard to ensure that this school year, strange though it was, had its place in our school's history books. We couldn't have asked for a better staff!

So thank you Sophia, Courtney, Anijah, Anya, Tess, Kate, Sarah, Melissa, Leigha, and Alexa.

Thanks to Ryan Goldberg for taking such great sports photographs.

Thanks to Nancy Gagliardi in the main office for all her hard work, and Maureen Bassmann and Andrew Wendol in the Athletic Department for all of their hard work.

Congratulations to the Class of 2021 and all Hastings Students!

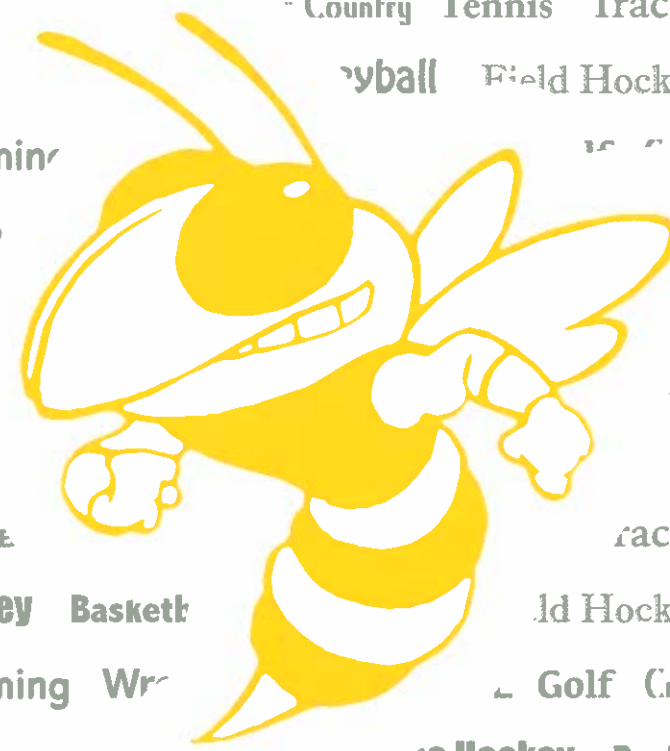

Don't wait to reach your goal to be proud of yourself;
Be proud of every step you take!

We are proud of you all!

SPRING 2021

There were a lot of events that we couldn't cover in this year's yearbook, for reasons outside of our own control. Crazy overlapping sports seasons, delayed concerts and musicals, and an early yearbook deadline meant that many of the events we would normally fit between the covers of the book would fall outside of our deadlines. In this supplemental booklet you will find many, but certainly not all, of those events we hoped to cover. This includes Varsity and Junior Varsity Spring sports, the high school musical, and the Spring concert. As an added bonus, we were also able to include an event that has never been covered in the yearbook before: the Senior Prom. This has been a crazy year for us all, and it was an exceptionally difficult year for the yearbook staff to adequately cover. We are proud of our work, however, and we hope you enjoy it.
